

OCTO Fleet Telematics

Your connected fleet. Digital, Efficient, Green and Safe.

Take your Fleet to the next level

Digital

Accelerate your transition to digital through data analytics and gain real-time insights into the performance of your fleet.

Efficient

Monitor your fleet's utilization and performance through telematics. Reduce operational costs, maximise uptime through efficient fuel and energy management, maintenance management and preventative maintenance with native or aftermarket telematics data.

Green

Improve your ESG reporting and sustainability mandate with a proven Eco Index and Eco Driver Score with insights that will enhance accuracy for green reporting and assist with fleet transition programs.

Safety & Rewards

Sophisticated driver behavior analytics, risk score, advise and insights that will help improve fleet risk insights, identify and reward good drivers whilst helping improve riskier drivers. All this while helping fleet owners and insurers manage exposure and events through connected telematics.

OCTO Fleet Telematics

Get the most from behavioural, contextual, diagnostic analytics to make smarter decisions for your fleet

WHY TELEMATICS

FLEET EFFICIENCY

Fleet Analytics | Tracking | Geofencing | Fuel Monitoring | Privacy Mode | Smart KeyLess

Use data insights to track vehicles, monitor alarms and alerts, optimize utilization, and streamline daily operations and reporting. Keyless entry enables car sharing among multiple drivers without a physical key.

SAFETY & SECURITY

Proactive Crash Assistance | B-call | Stolen Vehicle Tracking

Control Room Assisted crash detection and on-demand requests to assist fleets in case of a crash, breakdown or theft. Stolen Vehicle Tracking service tracks assets and aids with vehicle recovery. GuardianPro, a stealth back-up tracking device, can further improve recovery performance.

ASSET VALUE PROTECTION

Remote Car Diagnostics | Scheduled Maintenance

Monitor vehicle health remotely, proactively schedule maintenance checks and promptly react to diagnostics alerts. Reports such as daily summaries, business/private mileage, vehicle utilisation, and idle time provide insights on fleet performance.

RISK MANAGEMENT

DriveAbility® Advanced Score | Crash & Claim

Assess risky driving behaviours with OCTO's DriveAbility® Advanced Score with validated by actual claim data. OCTO solutions detects and validates crash in near real-time data and enables critical services such as road assistance. Crash reconstruction streamlines settlements processes and identifies potential fraud.

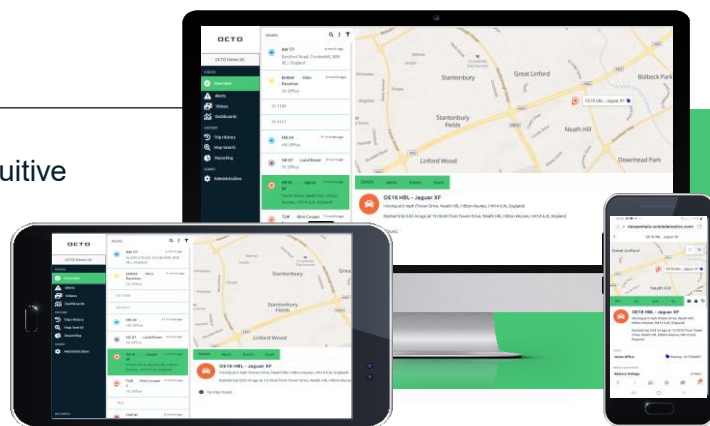

GREEN MOBILITY

Eco-Index | Pollutant estimation

Incentivise eco-friendly driving behaviour by raising awareness through the Eco-Index and emissions estimation.

WEB APPLICATION

- All fleet management features are available via an intuitive and powerful web application.
- Web access via smartphone and tablet enables fleet manager access on the go.
